Matilda is a wonderful story written by Roald Dahl about an amazingly gifted girl named Matilda. At the age of five, she could do double-digit multiplication problems and read great novels from Dickens and Austen. However, her talent meant nothing to her dull, self-centered parents. They used her as an excuse whenever anything went wrong.

It is not until Matilda attends school and meets the lovely Miss Honey that things begin to change. She is the first person to recognize Matilda's brilliance and wants to help Matilda reach her full potential. However, things don't become easier for Matilda there. She must survive a place ruled by the frightening and insane Miss Trunchbull who has Matilda in her sights, insisting she is "a nasty little worm".

In order to punish those adults who ignore or belittle her, Matilda uses her magical powers to play tricks on them. Can Matilda defeat her unloving parents and the terrifying headmistress? How about Matilda's beloved teacher, Miss Honey? Can Matilda live with her happily ever after? Go to the library, borrow the book and find the answer!
