

7th July, 2022

Dear Parents / Guardians,

The Issue Concerning Contraction of COVID-19

Our school has received a notification that one of our staff members and a Secondary Two student were being tested positive for COVID-19. The staff member last entered our campus on 24th June, 2022. The school had conducted daily screening for the staff’s body temperature and all of the results were normal. The relevant staff has been wearing masks in his/her workplace. The student last entered our campus on 30th June, 2022. The school carried out rapid antigen tests (RAT) for the classmates concerned and the test results were negative. The school has carried out deep cleaning and disinfection procedures on the campus.

As there has been a rebound in coronavirus cases, the school will continue to put in place “Health Protection Measures for Schools” set out by the Department of Health, “Health Advice to Schools for the Prevention of COVID-19” set out by the Department of Health and epidemic prevention measures contained therein.

Parents are reminded to take epidemic prevention measures and pay close attention to their children’s health conditions, and arrange testing for their children every day before returning to school. If your child is tested positive, he/she should not return to school and should inform the school immediately. In view of the recent increase in the number of outbreaks of upper respiratory tract infections in schools that are similar to those of COVID-19, students who develop fever or respiratory symptoms should not return to school even if RAT results are negative. If your child has any physical discomfort (even if the symptoms are mild), he/she must seek medical advice immediately so to receive quick medical diagnosis and treatment.

Thank you for your attention.

Yours faithfully,

Principal of Lock Tao Secondary School
